

AIR BOUNCERS

The Air Bouncer is available in a variety of standard sizes: (7.9m x 9m, 10.85m x 9m, 13.8m x 9m, 16.75m x 9m and 19.7m x 9m – see www.airbouncers.com).

We can also manufacture different sizes as required.

We can customise your Air Bouncer from factory with your business name/logo and safety notices.

Both full and partnered installations are supported by our team.

The Air Bouncer comes with an air blower and air blower cabinet, the air delivery pipe and operator instructions.

We offer sand and non-sand surrounds.

Testimonials

"We installed an Air Bouncer into our soft play centre in December 2016. The process was easy and the service from start to finish was fantastic. The product itself has been amazing. All of the feedback has been positive and our only regret is that we didn't have a bigger unit or multiple units installed. We will certainly be installing another one in our next centre."

Chris Rockal,
Business Development Manager,
Northampton Leisure Trust,
Berzerk, Northampton.

"We love our new Air Bouncer! It's been massively popular with our visitors and looks great. They were here to help us with the installation and when we had an unexpected issue, they were here within 24 hours to put it right for us. Great product, great service – we love it!"

James Turner, Manager,
World of Country Life,

What is an Air Bouncer?

An Air Bouncer is first and foremost about fun: fun for children, fun for adults and it's great for fitness too.

An Air Bouncer provides a unique jumping experience on an inflatable surface made of a high quality, hard wearing material that offers protection to potential damage by UV rays. It comes in various sizes and can be up to almost 100 feet long. The jumping platform is at a lower level than more traditional type bouncing/jumping play equipment thus increasing its safety features. It can be installed indoors or outdoors, with rain covers if required.

AIR BOUNCERS

The product is well established and hugely successful in the USA and Australia. It is new to the UK and Ireland. The Air Bouncer is installed in venues such as open farms, leisure parks, agri-tourism ventures, caravan parks, children's play centres etc. By attracting new customers and offering a new experience to repeat visitors, the Air Bouncer is ultimately about increasing profits.

Quality Guaranteed!

AIR BOUNCERS

- Our Air Bouncers are constructed using the best materials and are backed by a 5 year warranty.
- Our team is experienced in installing Air Bouncers and is supported by relevant engineering and health & safety staff.
- We have developed an anchoring system which is superior to that used by companies with similar products.
- Our Air Bouncers contain state of the art safety measures, are lead and latex free and allergy safe.
- We have developed an air delivery system, which is unique to Air Bouncers. This allows for faster installation and less maintenance.

We offer a lead in time of only two weeks from order.

We provide ongoing support to our clients. In the unlikely event of a problem occurring with an Air Bouncer, we guarantee that we will be on site within 48 hours to sort the matter.
